Biography

Dr. Goh is a Principal Clinical Psychologist with the Department of Developmental Psychiatry, Institute of Mental Health (IMH), Singapore. She has extensive clinical experience working directly with children, parents, and caregivers, and also supervises junior colleagues. She conducts training and workshops for fellow professionals in both psychotherapy and Autism-related topics. She is a certified trainer in the administration of standardized assessments instruments such as the Autism Diagnostic Interview and the Autism Diagnostic Observation Schedule.

Dr. Goh was awarded the National Medical Research Council Fellowship award under the Ministry of Health, Singapore, to study Doctorate in Clinical Psychology. She was also a fellow with the Rehabilitation Research Institute of Singapore and a Donald J Cohen Fellow at the International Association for Child Adolescent Psychiatry and Allied Professions. She received the Healthcare Manpower Development Plan Fellowship Award (Team) in 2017 to the United Kingdom, with the aim of developing services for Autism Spectrum Disorders. She oversees the Internship Program in Child Mental Health at IMH and manages the research activities of the Department of Developmental Psychiatry. She is an active reviewer for many established journals and is involved in research projects in developmental disorders and child mental health.
