

Leong Hui Ling Wendy

Senior Nurse Manager, Nursing Service (Quality), TTSH

Research Interests:

- Patient-centered care
- Process Improvement
- Data Analytics

Email: hui_ling_leong@ttsh.com.sg

Biography

I began my career as a registered nurse in a geriatric ward, where I developed a deep passion for elderly care. Recognizing the need for advanced knowledge, I pursued an advanced diploma in Geriatric Nursing, followed by degree in Nursing. I moved on to transiting into quality improvement roles focused on enhancing patient safety, particularly through analyzing hospital falls indicators. This experience opened opportunities for me to work on innovation projects that leverage technology to address healthcare challenges. My goal has been to integrate new tools and methodologies to streamline processes and improve care delivery.

With my background in nursing and quality improvement, I strive to support innovative solutions that enhance patient care and safety, contributing to positive change within the healthcare system.
